Discontinued products

Table 1: Discontinued controls, control accessories, and valve repair kits

Part number	Description	Availability	Replacement	Replacement notes
A19ACA-20C	Electromechanical temperature control, manual reset	Restricted to specific OEMs	A19ACA-15C	The A19ACA-15C capillary length is 10 ft instead of 20 ft
A19AGF-51D	Electromechanical temperature control	Restricted to specific OEMs	No replacement	—
A19AHA-5C	Electromechanical temperature control, no enclosure	Standard offering	No replacement	—
A28MA-1C	Electromechanical temperature control, NEMA 3R enclosure	Standard offering	No replacement	—
A40FA-4C	Pneumatic temperature control	Restricted to specific OEMs	No replacement	—
F59A-11C	Sump pump switch	Standard offering	F59A-1C	—
P10BJ-3C	Low air pressure control	Restricted to specific OEMs	No replacement	—

PRODUCT DISCONTINUATION

Table 1: Discontinued controls, control accessories, and valve repair kits

Part number	Description	Availability	Replacement	Replacement notes
P20CE-4D	High pressure control	Restricted to specific OEMs	No replacement	—
P47AA-13C	Steam pressure limit control, opens on rise	Standard offering	No replacement	—
P70CA-61C	Low pressure control, opens high	Standard offering	P170CA-1C	—
ROD18A-600R	V43 series water regulating valve, push rod repair kit	Standard offering	No replacement	—
ROD18A-601R	V43 series water regulating valve, push rod repair kit	Standard offering	No replacement	—
ROD18A-602R	V43 series water regulating valve, push rod repair kit	Standard offering	No replacement	—
ROD18A-604R	V43 series water regulating valve, push rod repair kit	Standard offering	No replacement	—
SHL10A-603R	Temperature sensing bulb shield assembly	Standard offering	No replacement	—
STT16A-601R	V46, V47 & V48 series water regulating valves, seat repair kit	Standard offering	No replacement	—
STT17A-613R	V46/V246 and V47 series maritime water regulating valves, seat repair kit	Standard offering	No replacement	—
T26A-13C	Line voltage heating thermostat	Restricted to specific OEMS	T26S-18C	The T26S-18C is a line voltage heating and cooling thermostat with a knob adjustment
T26A-15C	Line voltage heating thermostat	Standard offering	T26A-14C	The maximum setting of the T26A-14C is 75°F instead of 65°F
V46BA-2C	Pressure actuated water regulating valve, maritime type	Standard offering	No replacement	—
V46BB-2C	Pressure actuated water regulating valve, maritime type	Standard offering	No replacement	—
V46EB-2D	Pressure actuated water regulating valve, high pressure	Restricted to specific OEMs	No replacement	—
V46EH-1C	Pressure actuated water regulating valve, high pressure	Restricted to specific OEMs	No replacement	—
WEL17A-601R	Immersion bulb well	Standard offering	No replacement	—

PRODUCT DISCONTINUATION

Last-time buy

Effective immediately until March 20, 2026, you can place last-time buy orders for the discontinued products. Ensure that the shipping date of the last-time buy order is May 1, 2026 or earlier. After March 20, 2026, Johnson Controls will no longer accept purchase orders for the discontinued products. Johnson Controls continues to honor the warranty for the discontinued products.
