M9200 and VA9200 Series Floating Actuator Discontinuation

LIT-12001549

• Building Solutions:
LATAM, NA

• Controls Product Sales
• IDC

• Facility Explorer ABCS

• Metasys ABCS

Overview

Johnson Controls has discontinued all floating models of the M9203, VA9203, M9208, VA9208, and M9220 Series spring return rotary actuators. Floating models for other rotary actuator series remain available.

This change is effective immediately and impacts all standalone actuators and the valves that use them. A last-time buy is not available. Johnson Controls advises customers who need a floating spring return model to select a proportional model in its place. The following tables list all impacted products and the suggested replacements with proportional control.
