

Selection and Ordering data		Order No.									
FAT & Factory Certificates for extractive gas analyzers Series 6 and ULTRAMAT 23		7MB8100 - - - - -									
Factory acceptance test (with customer)											
Visual inspection and basic adjustments											
Without											
Visual acceptance		0									
Visual acceptance, function, calibration zero and span		1									
		2									
Measuring response											
Without											
Signal noise, drift		A									
Signal noise, drift, linearity, T ₉₀ time		B									
		C									
Compensation, cross interference											
Without											
Pressure compensation		A									
1 interferent component		B									
2-3 interferent components		C									
Pressure compensation and 1 interferent component		D									
Pressure compensation and 2-3 interferent components		E									
		F									
Ex protection											
Without											
Pressurized enclosure Ex units (functionality)		0									
		1									
Relays											
Without											
Relay test		0									
		1									
Certificates											
General certificates											
Quality inspection certificate to DIN EN 10204 2.1 ¹⁾											
Adjustment certificate (with test gas)											
Certificate of origin ¹⁾											
Certificate of origin and adjustment certificate		0									
Certificate of origin and quality inspection certificate 2.1 EN 10204 ¹⁾		1									
Certificate of origin, adjustment certificate and quality inspection 2.1 EN 10204		2									
		3									
		4									
		5									
Factory inspection certificate to DIN EN 10204 2.3											
Without											
Signal noise, drift, linearity											
Signal noise, drift, linearity, pressure compensation		A									
Signal noise, drift, linearity, pressure and temp. compensation		B									
		C									
		D									
Factory inspection certificate to DIN EN 10204 2.3, extended											
Without											
Cross interference (H ₂ O and 2 additional gases)											
T ₉₀ time		A									
Influence of CO ₂ containing atmosphere		B									
Cross interference ²⁾ and T ₉₀ time		C									
Cross interference ²⁾ and influence of CO ₂ containing atmosphere		D									
T ₉₀ time and influence of CO ₂ containing atmosphere		E									
Cross interference ²⁾ , T ₉₀ time and CO ₂ influence of CO ₂ containing atmosphere		F									
		G									
		H									
Factory inspection certificate to DIN EN 10204 2.3, language											
German											
English		0									
French		1									
		2									
Necessary analyzer information		Order code									
Please add „-Z“ to Order No. and specify order code.											
Information about product / order with item no. and contact person (VReg, Region or Distributor)		Y22
